

WHAT IS CLAIMED IS:

1. A compound fabric for making protective cover, comprising:

05 at least one layer of non-woven fabric forming an upper layer of
said compound fabric;

 a layer of fabric forming the middle layer, which is plain
weaving or knitted fabric, of said compound fabric; and

10 at least one layer of non-woven fabric forming a lower layer of
said compound fabric; and

 said upper, said middle, and said lower layer being bonded
15 together to form an integral body.

2. The compound fabric for making protective cover as claimed in
claim 1, wherein said upper, said middle, and said lower layer
are bonded together by way of ultrasonic welding.

20 3. The compound fabric for making protective cover as claimed in
claim 1, wherein said upper, said middle, and said lower layer
are bonded together by way of adhesive lamination.

25 4. The compound fabric for making protective cover as claimed in
claim 1, wherein said non-woven fabrics forming said upper and
said lower layer are made of polypropylene fibers.

5. The compound fabric for making protective cover as claimed in claim 1, wherein said non-woven fabrics forming said upper and said lower layer are made of polyethylene fibers.
- 05 6. The compound fabric for making protective cover as claimed in claim 1, wherein said non-woven fabrics forming said upper and said lower layer are made of polyester fibers.
- 10 7. The compound fabric for making protective cover as claimed in claim 1, wherein said woven fabric forming said middle layer is of a plain weave fabric.
- 15 8. The compound fabric for making protective cover as claimed in claim 1, wherein said woven fabric forming said middle layer is of a knitted fabric.
- 20 9. The compound fabric for making protective cover as claimed in claim 1, wherein said woven fabric is plain weaving fabric forming said middle layer is coated with waterproof and air-permeable resin material.
- 25 10. The compound fabric for making protective cover as claimed in claim 1, wherein said knitted fabric forming said middle layer is coated with waterproof and air-permeable resin material.
11. The compound fabric for making protective cover as claimed in claim 9, wherein said resin material is a polyurethane (PU)

resin.

12.The compound fabric for making protective cover as claimed in
claim 10, wherein said resin material is a polyurethane (PU)
resin.

13.The compound fabric for making protective cover as claimed in
claim 1, wherein said woven fabric forming said middle layer is
laminated with a waterproof and air-permeable film.

14.The compound fabric for making protective cover as claimed in
claim 13, wherein said waterproof and air-permeable film is a
polyurethane (PU) film.

15.The compound fabric for making protective cover as claimed 1, 7,
or 8, wherein said woven fabric forming said middle layer is
made of synthetic fibers.

16.The compound fabric for making protective cover as claimed in
claim 15, wherein said synthetic fibers are polyester fibers.

17.The compound fabric for making protective cover as claimed in
claim 15, wherein said synthetic fibers are polyamide fibers.
